EDUCATION

Bachelor's Degree

Software Engineering

African Institute of Computer Sciences

2024 | *Yaoundé, Cameroon*

GCE Advanced Level

Geology

Government Bilingual High School

2019 | *Dschang, Cameroon*

PROFESSIONAL SUMMARY

Experienced Full-Stack Software Developer with over 3 years of expertise in designing, developing, and deploying scalable web and mobile applications. Proven track record in delivering enterprise-level solutions for hospitality, education, transportation, and restaurant management sectors.

Strong technical foundation in modern web technologies including React, Django, and PHP, combined with database management and API integration skills. Demonstrated ability to lead projects from analysis through deployment while maintaining high code quality and performance standards.

Known for excellent problem-solving abilities, effective cross-functional collaboration, and commitment to delivering innovative solutions that drive business value and user satisfaction.

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

Univers Binaire

Yaoundé, Cameroon

2023 – 2025

- ▸ Architected and developed 4+ enterprise-level web applications serving multiple industry sectors including hospitality (UB Hotel), education (UBSCHOOL), transportation (Business Car), and food service (UBRESTO)

- ▸ Implemented full-stack solutions using modern technologies including React for frontend, PHP/Python backends, and SQL databases

- ▸ Collaborated with cross-functional teams to analyze requirements, design system architecture, and deliver production-ready applications

- ▸ Optimized application performance and ensured scalability for high-traffic environments

- ▸ Maintained and enhanced existing applications while implementing new features based on user feedback

- ▸ Managed project timelines and coordinated with stakeholders to ensure timely delivery of milestones
